

MEASUREMENTS FOR WOMEN AND MEN

PALLADION
PROTECTIVE CLOTHING

- This measurement sheet is used for placing orders and for special sizes.
- Please take the measurements carefully. Claims due to incorrectly stated measurements cannot be considered.
- If possible, take the measurements while wearing underwear or tight-fitting clothing and without shoes.
- For the best possible tailoring of the bespoke suit, a few recent photos of the person would also be very helpful. This allows us to take proportions and details into account even more precisely.
